

Cinematic Titles Vol 2 // Fonts List

Thanks for purchasing Cinematic Titles Vol 2

Please upgrade your Adobe Creative Cloud to a minimum of 2021. If you are having any additional difficulties, install After Effects to your computer and also set your Creative Cloud application settings to English. Unfortunately, the scripting language that is used for these templates is not universal and using the software in a different language can break code.

DISCLAIMER:

We **do NOT** own the fonts below. These fonts were designed and built by various creators that offer free download links for use on personal (non-paid) projects. Should you use any of these fonts on larger tier / paid commercial projects - you will want to purchase a license from the font developer. Ultimately, you assume all liability associated with licensing, and we are not responsible for any breach of licensing agreement.
